Homes Must Be Healthful

HOME that protects from enemies and weather, but which allows disease to menace its residents, fails in its purpose, since the fundamental reason for a home is protection.

The race which built only for protection and neglected sanitation became diseased and gradually degenerated or died out. The famous Pueblos are adobe houses which have lasted hundreds of years, but were built without provision for light, air, and sanitation. Their ancient owners fought a losing battle against the one enemy who was not daunted by their formidable walls-disease.

In order to prosper, a city must have comfortable, sanitary homes that will insure the rearing of healthy, patriotic citizens, who will build for the future of their city.

Tulsans who would help Tulsa reach the civic heights to which she aspires, can render greatest help to their city by aiding in the construction and maintenance of modern homes.

We offer such an opportunity in the form of Real Estate Savings Bonds and City Mortgages on Tulsa property; 6% Real Estate Savings Bonds, secured by first mortgages, can be bought in amounts as low as \$50. 8% City Mortgages, 1-, 2-, 3-, and 4-year paper, as low as \$500, with interest semiannually.

We ask that you discuss with our investment department of the Trust Company the advantages of investing in Tulsa securities.
